

Data Sheet

HOFA Absorber Natural Premium (with frame)

HOFA Absorber Natural Premium

HOFA absorbers effectively reduce the reverberation time of mid and high frequencies to optimize room acoustics.

They are used wherever the best possible acoustic environment is required, such as in recording studios, home cinemas, and hi-fi rooms. HOFA absorbers also improve speech intelligibility and overall sound quality in living spaces, offices, and event venues.

The HOFA Absorber Natural Premium combines excellent sound absorption with environmentally friendly materials. Filled with 100% sustainable natural fibers and framed in an elegant wooden housing, it not only provides effective reverberation control but is also the perfect choice for those who value sustainability.

Dimensions:

50 cm x 50 cm x 11 cm

Colors:

anthrazit, bordeaux, cream, grey, orange, blue, black

Weight:

Ca. 3,64 kg

Material:

Acoustically effective core made of renewable natural fiber in a birchwood frame
