

Data Sheet

# **HOFA** Absorber Natural

## HOFA Absorber Natural

The HOFA Absorber Natural provides a significant reduction of reverberation and reflections across a wide frequency spectrum starting from 200 Hz. It improves acoustics in spaces such as recording studios, rehearsal rooms, and hi-fi rooms, ensuring precise and balanced room sound.

The HOFA Absorber Natural combines excellent sound absorption with eco-friendly materials. With its filling made from renewable natural fibers and a sturdy recycled cardboard construction, it not only provides effective reverberation reduction, but is also ideal for users who value sustainability. The materials are free from harmful chemicals, so you don't have to worry about the air quality in your rooms.

### Dimensions:

50 cm x 50 cm x 10,6 cm

### Colors:

anthracite, bordeaux, cream, grey, orange, royal blue, black

### Weight:

In total: 1,85 kg

Fabric cover: approx 0,17 kg/m<sup>2</sup>

### Material:

Fabric cover made of 100% polyester (changeable)

Acoustically effective core made from renewable natural fibres

Robust inner frame made from recycled cardboard

### Fire Protection:

Fire behavior according to DIN EN 13501-1: E

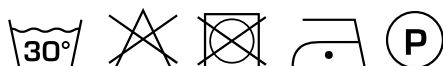

Fire behavior group according to VKF Fire Protection Guidelines R: RF3 cr

## Environment and health:

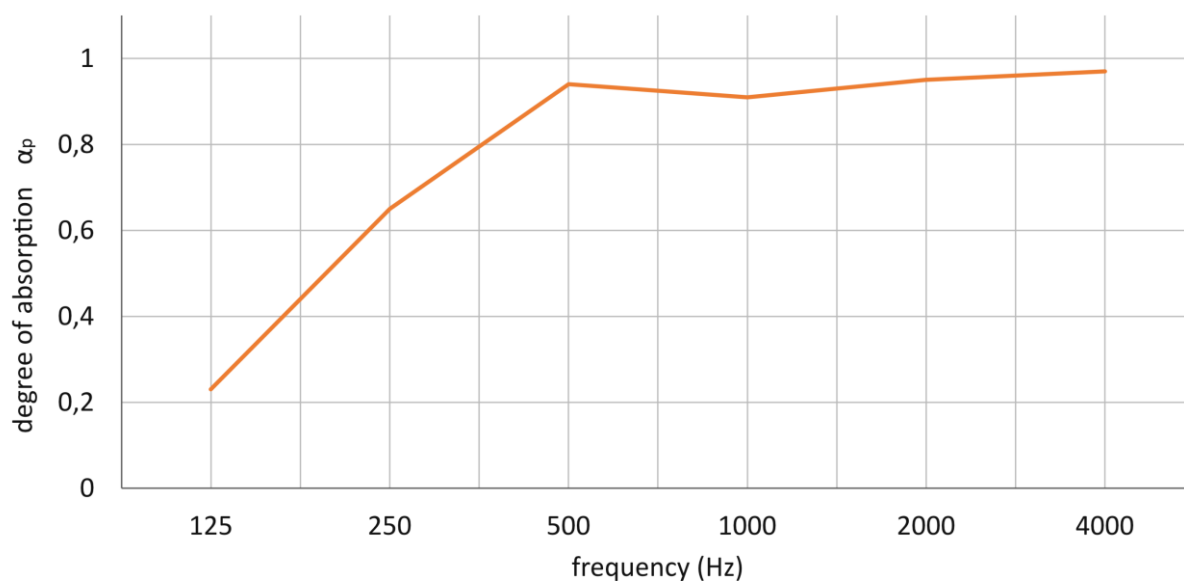

Free from pollutants, no emissions and harmless to health  
(tested by the Rosenheim Institute for Building Biology)

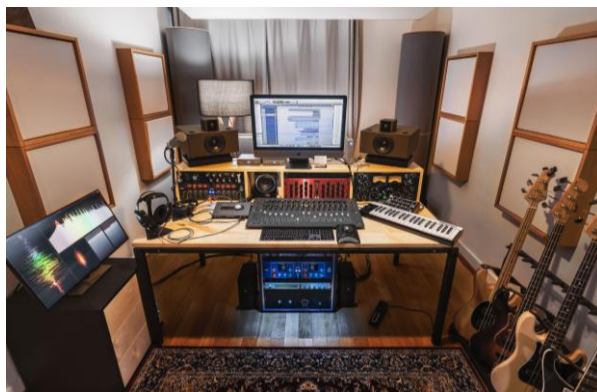

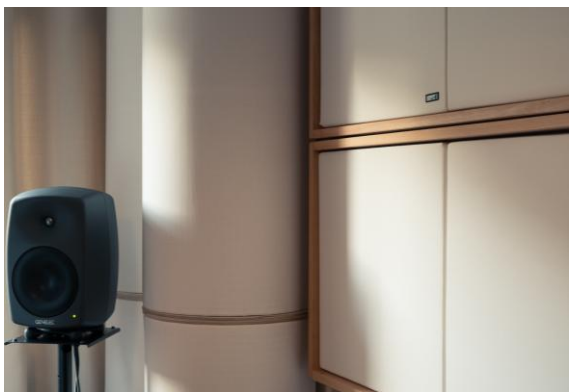

## Cleaning:

The fabric cover can be washed at up to 30°C

## Acoustic Effectiveness:
