Curtain Rail Set Heavy

**HOFA Curtain Rail Set Heavy**

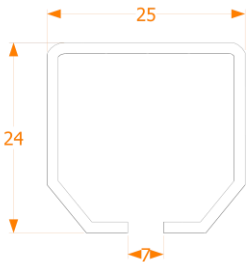

The HOFA Curtain Rail Set Heavy is a particularly stable solution for mounting heavy acoustic curtains. Ball-bearing rollers ensure excellent running characteristics and smooth handling, even with very heavy curtains. The construction is designed for high load capacity and long-term use and is suitable for both ceiling and wall mounting. The HOFA Curtain Rail Set Heavy is available blue zinc-plated as well as in black or white powder-coated finish.

**Dimensions and Weight:**

Custom lengths are available upon request.

The weight is approximately 0.9 kg/m.

|                         |        |
|-------------------------|--------|
| Rail length (standard): | 195 cm |
| Rail width:             | 25 mm  |
| Rail height:            | 24 mm  |
| Rail groove:            | 7 mm   |
| Material thickness:     | 1,4 mm |

**Mounting Material:**

|                                      |                                                                                       |
|--------------------------------------|---------------------------------------------------------------------------------------|
| Rail                                 |   |
| Connector                            |   |
| Stopper                              |  |
| Roller                               |  |
| Hook (for curtain with curtain tape) |   |
| S-Hook (for curtain with eyelets)    |  |
| Ceiling Bracket                      |  |
| Wall Bracket (optional)              |  |

## Load Capacity:

The maximum load capacity is up to 100 kg.

## Material:

Steel; blue zinc-plated

## Colors:

White

Black

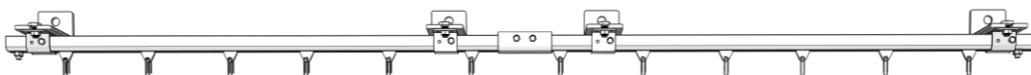

## Mounting:

Ceiling mounting with ceiling brackets:

Wall mounting with ceiling brackets and wall mount brackets

The mounting instructions can be downloaded [here](#) or are available by email upon request.

## Extras:

Curved rails; custom-made according to sketch
